# BLAZING 7'S BLACKJACK PROGRESSIVE

is an optional progressive side bet for Blackjack based on the number of 7's a Player and/or Dealer receives. The more 7's, the more you WIN!

## GETTING STARTED / PLAY

To begin each round, each Player must make a standard Blackjack wager and may also place an optional Blazing 7's Progressive wager. The Blazing 7's Progressive considers both the Player's initial two (2) cards AND the Dealer's Up-Card. One or Two 7's in the Player's first two (2) cards WINS a payout. Two 7's PLUS a Dealer's Up-Card 7 qualifies for one of the three Blazing 7's Progressive Jackpot Meter payouts excluding Three Mixed 7's.

- Place a standard Blackjack bet. Player may also place a Progressive Bonus bet by placing a gaming chip on the designated chip acceptor device at his/her betting position.
- At the beginning of the round, each player is dealt their initial two (2) cards. The dealer will receive one (1) card face-up and one (1) card face-down (hole card).
- After the Dealer has completed the initial deal and revealed the up card, the Dealer will immediately resolve the Blazing 7's Progressive Blackjack wager.
- The Progressive bet will lose, if a Player's hand does not have at least one (1) 7 in their initial two (2) cards.
- A Player's winning hand shall receive the payout for only the highest possible Blazing 7's Progressive Blackjack hand.
