2. Players must be seated to play. Once a player has placed a wager and has been dealt a hand of cards, the player must remain seated until the completion of that round of play, may not talk to other players about the contents of his/her hand, or make it obvious they are looking at other hands. Also, only that player may touch his/her cards.
3. The players each receive five (5) cards face down; the dealer receives six (6) cards – the first five down and the sixth up. The dealer always qualifies and the best Four Card Poker Hand wins. The player wins all ties.
4. Before the first card is dealt, each player may place a wager on the Ante, and/or Aces Up and Progressive wager, or all; the Ante, Aces Up and Progressive. (Must play the Ante to qualify for the Progressive Payout)
5. The Aces Up wager must be at least the table minimum, but not more than table maximum, the Ante must be at least the table minimum, but not more than the table maximum.
6. All Ante, Aces Up and Progressive wagers must be placed prior to the dealer announcing, "No more bets." No wagers shall be made or increased, decreased or withdrawn after the dealer has announced "No more bets."
7. After each player examines his or her cards, each player who has placed an Ante wager shall have an option to either make a Play wager or forfeit the Ante wager and end his or her participation in the round of play. Winning Ante and Play bets pay even money.
8. The player shall place a Play wager between one to three times the Ante wager in the betting spot beside his/her five card hand, for the player to continue his or her hand.
9. The player with only an Ante wager shall move the five cards dealt to an area away from his/her Play wagering circle if the player wants to fold or forfeit the Ante wager thereby ending his or her participation in the round of play.
