

EZ BACCARAT

NO COMMISSION BACCARAT

EZ Baccarat plays as regular baccarat except that it replaces the taking of a 5% commission on every winning Banker hand by “barring” one specific winning Banker hand - a three card total of seven. The appearance of this hand is the “Dragon”. When the Dragon appears, wagers on the Banker side push. Customers can make an insurance bet - the Dragon 7 bet - that pays 40 to 1 when the three card winning Bank hand occurs.

The object of the game is the same as regular baccarat, which is to get a point count closest to 9 on whichever of two possible hands the player wagers. All face value cards and ten value cards have a point value of zero and Aces have a point value of 1. The card point values are summed, and the tens column of the total count is ignored. The customer makes a wager on the Player hand, the Banker hand, a Tie hand or combinations of the above.

The customer can also place a side bet on the Panda 8 - a three card winning Player hand totaling 8. This bet pays 25 to 1. The Player side is paid even money. All other bets lose.

When wagering on the Tie, Dragon 7 or Panda 8 without a Banker or Player wager, that wager must meet the table minimum.
