Facial Peels

Lactic Acid Peel

All Skin Types

This mild peel is for all skin types. It is effective for dry, sensitive, thin, hyperpigmented or aging skin. No visible skin flaking will occur making this an excellent introductory peel.

Alpha Peel

Normal to Dry Skin

Glycolic, Salicylic, and Lactic acids are used to soften, smooth and exfoliate the skin. This peel stimulates Collagen production which improves the overall appearance of aged or damaged skin.

Beta Peel

Oily, Normal or Aged Skin

This peel is designed to stimulate new tissue growth in acneic or thicker skin. This treatment is effective in accelerating the healing of acne and also improves the appearance of fine lines and wrinkles.

Skin Care Enhancements

Microdermabrasion 50 Min.

Microdermabrasion is one of the best preventative and corrective treatments for ageing skin. This process gently removes the outer layers of skin, causing little or no discomfort. The technique targets fine lines, acne scars, and sun damaged skin.

Micro Lift Photo Therapy 80 Min.

The Anti-Aging Micro lift is a treatment that combines microdermabrasion with light therapy and micro currents. This uniquely designed service helps to stimulate the production of collagen and improve muscle tone. Micro-currents are used to help penetrate vitamins, nutrients and peptides into the skin to improve the overall skin health.

Derma lift Photo Therapy 80 Min.

This remarkable repair therapy is designed for the neck and chest to restore skin elasticity. Skin appears firmer and tighter-revealing a more youthful neck and décolleté with the use of microdermabrasion with light therapy and the penetration of vitamins and nutrients through the use of micro currents.

Purifying Anti-Acne Photo Therapy 80 Min.

This facial is ideal for those prone to frequent breakouts, blemishes, and skin irritability. This effective treatment combines purifying and healing ingredients to deeply cleanse the pores. A pure light treatment is then used to help kill bacteria, while reducing inflammation and controlling oil activity within the skin.
