

**Q.** An electronic table game sounds complex. What is it?

**A.** An electronic table game is a multi-game machine that combines both the human involvement of a live dealer and live table game outcomes with an electronic betting terminal.

**Q.** How do I play?

**A.** Take a seat at any ETG terminal and select the games you would like to participate in. With our user-friendly interface, lower wagering limits, and easy betting options, everyone can play at their own pace.

**Q.** What games are offered on an electronic table game?

**A.** There are a wide variety of games available including blackjack, baccarat, roulette, and sic bo.

**Q.** Are these games played differently than gameplay at the tables?

**A.** For most themes, the gameplay itself does not change, but it does offer players a customized experience, the ease of navigating between games, and the ability of play multiple games concurrently.

**Q.** What if I don't typically play table games?

**A.** That's OK! With an electronic table game, we eliminate the intimidation of playing among a table full of experienced players. With a player-friendly interface and easy betting options, you can play at your own pace with the opportunity to win big!

**Q.** What do electronic table games offer for experienced players?

**A.** Our more experienced players will relish faster dealing, and multi-game options all on a 33-degree ergonomic screen.

**Q.** Where can I play?

**A.** Right here! Contact the nearest slot host or table games pit representative for more information.
